ABOUT US

PREMIUM BAGASSE TABLEWARE

Driven by the group's core values and a vision for a sustainable future, **NATUREVE ECOWORLD LLP** was established to transform agricultural by-products into high-quality, eco-conscious alternatives to single-use plastics.

We specialize in manufacturing and distributing 100% biodegradable, compostable tableware—including plates, bowls, and trays—crafted entirely from sugarcane bagasse. By taking natural agricultural waste and converting it into durable, sustainable packaging, we empower businesses and consumers to make more sustainable choices without compromising on performance, quality, or convenience.

Backed by our group's extensive supply chain network, logistics capabilities, and commitment to customer satisfaction, we bring reliable, eco-friendly product solutions to commercial, wholesale, and institutional buyers globally.

- Healthy
- Oil & Water Repellent
- Non-Toxic
- Strong & Durable
- Microwave Safe
- Refrigerator Safe
